

Santander Connect Plus

Take control of your banking

Santander Connect Plus is a secure and integrated online banking service that allows you to access your accounts, 24 hours a day, from any location*. A consolidated account view gives you complete control and transparency over your company's finances and cash flow. Execute transactions more effectively and manage open cash positions, transferring surplus funds into higher yielding accounts.

Functionality

- **Real-time account and transaction overview:** Gain instant visibility of your current, deposit and foreign currency account balances and transactions from anywhere in the world*. Export balance and transaction data in convenient formats for your own reconciliation activities.
- **Comprehensive payment services:** A range of domestic payment facilities exist to give you greater control over your finances, cash flow and meeting payment obligations. You can make same day and future dated payment instructions using; single and bulk Faster Payments, CHAPS payments and account transfers between your own sterling and currency accounts. Additionally, create and manage standing order instructions and take control of your Direct Debits.

Our international payment facility builds on the Global network of Santander, enabling payments around the world in a wide range of supported currencies.

You can also manage and maintain payment templates and beneficiary records. A payment import facility allows the import of payments direct from your own systems, saving valuable time.

*Customers are responsible for ensuring compliance with local laws when using this service outside of the UK and Jersey. Please refer to our Terms and Conditions for further information.

We also provide an alternative online banking service with basic everyday functionality. For further information please refer to our Santander Connect factsheet, contact your local Relationship Director or visit: santandercb.co.uk

- **Flexible and secure administration:** A variety of payment limits, controls and authorisation features exist to give you more control and autonomy over your payments. A flexible user management facility lets you tailor and personalise access for your staff. This includes payment limits, controls and authorisation features.
- **Secure online banking:** Security is our priority. We employ the latest proven security solutions to give you the confidence to bank online in a safe and secure environment.
